Dear Berkeley Other and Belonging Institute,

I am a Graphic Designer that loves to create designs for underrepresented cultures and leaders. I want to work with Berkeley Other and Belonging Institute because I want to help the students feel freedom, belonging, and openness. In the past, as a minority, I struggled to find a place of work that upholds these principles and made me feel welcome. I know that in my day to day work at Berkeley I will be able to make a difference everyday.

I will love to use my skills: print design, web design, and interactive design to create innovative solutions for the projects. I have over 2 years experience working in the design field. I can make mock-ups, social media deliverables, infographics, and any other needs for the department.

I am a passionate and hard working individual that loves to challenge herself and collaborate with petiole of various backgrounds. I desire to work with BerkeleyInstitute to make a difference in other lives. I look forward to hearing more about the position.

*Sincerely,
Imani Danzy*

Dear Corefact,

I will bring my design skills to help Corefact make an impact in the mortgage and real estate industries. I will work with the team passionately and bring a can-do attitude. I have experience with web design, print, branding, and other communication material utilizing my skills in dreamweaver, Indesign, photoshop and Illustrator. I am great at working independently, with a team and managing project due dates. I am a great fit for this role because I am passionate about what I do, I make sure to meet deadlines and communicate effectively with teams.

*Kind regards,
Imani Danzy*

Dear ITVS, 

I am a designer for underrepresented voices and leaders, so working for ITVS would be the best suited opportunity for me because you give voices to those who need to be heard. I grew up desiring having voices in film from people that looked and like me. Seeing the work that ITVS produces helps me and others feel more represented in the world.

Designing for a cause like ITVS that impacts the world in a positive way gives me daily motivation to bring my best work and design solutions to communicate a curated message. I have made designs with non-profits like Creation of Society, educational resource for sickle cell anemia, and Voice of the Youth, youth leadership program, these projects have made an impact on the society by encouraging or educating the people. Each day working as a designer for ITVS, I will strive to make impactful designs, improve upon my skills, and bring each projects voice put through thoughtful design.

I look forward to hearing back from you about the position.

*Kind regards,
Imani Danzy*
